DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claim 12 is rejected under 35 U.S.C. 102(b) as being anticipated by Drew 5,762,246.

Regarding claim 12, Drew '246 discloses a visor attachment (2) which is to be attached to a visor (12) of a vehicle comprising a transparent main body (22) having a surface onto which items to be views are positioned; and holding means (8) are holding items that are to viewed on the transparent main body in Figure 1.

Allowable Subject Matter

3. Claims 10, 11 and 15-19 are allowed.
4. Claims 13 and 14 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.
5. The following is a statement of reasons for the indication of allowable subject matter:

The recitations of the specific features of the visor attachment in claims 10 and 16 including especially the construction of the lighting instruments which impinge light upon the surface of the transparent main body so as to enable the items positioned thereon to be viewed is not taught nor is fairly suggested by the prior art of record.

Art Unit: 3612

6. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

The cited references show several other visor attachments similar to that of the current invention.
